Objective

I am looking for opportunities to use my coding skills, experience and leadership experience to add value to businesses through digital platforms, as an employee or as a freelance worker.

Professional Experience

Owner & Optometrist, Adelaide Eye Care (2003 - Present)

Managed and operated three successful optometry practices for 20 years, providing exceptional patient care and customer service. Specialized in fitting rigid and scleral contact lenses, myopia management, and handling patients with complicated spectacle prescriptions. I've consistently maintained high patient satisfaction ratings and implemented innovative strategies to grow and expand the practices.

Developed the Point-of-Sale system and Clinical Records system for the practices, including integration with Xero accounting software, and Cliniko online booking system. The system is used daily by all staff and has been a key factor in the success of the practices.

Co-Owner, Allevé Eye Clinic (2016 - Present)

I'm proud to have been involved in opening South Australia's first dedicated dry eye clinic, Allevé Eye Clinic, offering advanced diagnostics and treatment options for sufferers of dry eye and related ocular surface disease.

Professional Services Manager, OPSM SA, NT & TAS (2000 - 2002)

Responsible for hiring, scheduling, performance management, and training of all optometrists in the region. I also provided clinical support to optometrists in the region and was responsible for the development of clinical protocols and procedures.

I was also responsible for the development and implementation of a staff rostering system, which was adopted by OPSM nationally.

Education

Full-Stack Web Development Bootcamp, The University of Adelaide via edX (March, 2023 - September, 2023)

Currently enrolled in an intensive full-stack web development bootcamp, learning key programming languages and frameworks, such as HTML, CSS, JavaScript, MySQL, MongoDB, React, and Node.js.

PhD Candidate, Queensland University of Technology (1993 - 1997)

An unfinished thesis on the topic of "Environmental Factors in the Development of Late-Onset Myopia".

Bachelor of Applied Science (Optometry)(Hons), Queensland University of Technology (1986 - 1990)

Graduated with First Class Honours in 1990. I was awarded a University Medal for Academic Excellence.

Skills

- Software Development: Experience in VB.NET, C#, JavaScript, HTML, CSS, MySQL, Node.js, React, MongoDB, etc.
- Leadership: Managing and operating three successful optometry practices for 20 years, providing exceptional patient care and customer service. Currently managing a team of 10 optometrists and 10 retail staff.
- Optometry: 30 years of experience. Expertise in fitting rigid and scleral contact lenses, myopia management, and managing patients with complicated spectacle prescriptions.

Professional Memberships

Optometry Australia, Member, 1990 - Present
